

Dharmapal Bharati

Full Stack Developer

+91-8073848924 dharmapalbharati2525@gmail.com github.com/dharmapal25 linkedin.com/in/dharmapal25 [Portfolio](#)

SKILLS

- **Languages:** JavaScript, TypeScript, Python, SQL
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS, GSAP
- **Backend:** Node.js, Express.js, REST APIs, JWT, Socket.IO, Redis
- **Databases:** MongoDB, Pinecone (Vector DB)
- **CS Fundamentals:** OOP, DBMS, OS, CN, System Design
- **Tools & AI:** Git & GitHub, Vercel, LLM APIs, RAG

PROJECTS

FlashGPT · React · Node.js · Express.js · MongoDB · Groq AI · Pinecone · Google OAuth2

| [LINK ↗](#)

- Developed a full-stack AI assistant using the Groq AI SDK that dynamically renders responses with syntax-highlighted code blocks and provides automated AI-driven next-question suggestions.
- Integrated Google GenAI Embeddings with a Pinecone Vector Database for semantic memory search, while managing database space through an **automated 7-day chat expiration** policy.
- Secured user sessions via Google OAuth 2.0 and implemented API rate-limiting restricted to **15 requests per minute** to optimize server stability and control traffic flow.

Chat-Room · React · Node.js · Express.js · MongoDB · Socket.io · JWT Auth · Nodemailer

| [LINK ↗](#)

- Developed a bi-directional real-time chat application using Socket.IO to support instant messaging, live connection tracking, and instant delivery states across multiple rooms.
- Designed a secure room-management system with access controls, allowing room owners to approve or reject join requests with real-time notifications and **dual-layer security** flow utilizing Nodemailer for email OTP verification alongside secure JWT access tokens and HTTP-only refresh cookies.
- Optimized database performance by leveraging MongoDB indexing on unique identifiers to accelerate query response times and successfully resolved complex production **CORS issues** during deployment.

Web-OS (FlashOS) · React · JavaScript · CSS3 · react-rnd · Vercel

| [LINK ↗](#)

- Architected a browser-based desktop operating system utilizing React and glassmorphic CSS styling to power a multi-window ecosystem featuring **7+ built-in functional applications**, including a terminal CLI, notepad, and media player.

EDUCATION

B-Tech: Lucknow Institute of Technology, Lucknow | **CSE**

Aug 2025 – 2028

Diploma: Govt. Polytechnic, Athani | **CSE**

Aug 2022 – April 2025

ACHIEVEMENTS

- **1st Place – National Level Bug Hunt** – Identified and fixed code bugs with speed and accuracy.
- **2nd place - TechnoVision 24 Participant** – Presented project/idea in a state-level technical exhibition.
- **Qualified for India Innovates 2026 Finals** - presented working prototype at Bharat Mandapam, New Delhi in front of ministry judges nationwide.
